September 15, 2015

Honorable Mayor and City Council:

Submitted herewith is the annual budget for Fiscal Year (FY) 2016. The budget is balanced as required by State law. It provides revenue sufficient to meet budgeted expenditures for operations, capital improvements, equipment replacement, and debt service for the next fiscal year. City Staff prepared the proposed budget in a very prudent manner that concentrates resources on the day-to-day basic services of the City such as police, fire and public works.

The highlights of this budget include an increase in Property Tax revenue related to higher property values; increase in franchise tax revenue due to the .5% of the CPS Energy Franchise fee that was allocated to the CIED Fund being redirected to the General Fund.

Total General Fund Operating Revenue is budgeted at \$7,875,304 and Operating Expenditures are budgeted at \$7,875,304. Capital expenditures are budgeted at \$457,320 and one time expenditures at \$89,465, for a total of \$8,422,089 being budgeted for expenditures. Funding for capital and the one time expenditures will come from the capital reserve and not current year operating revenues. To fund the FY 2016 General Fund Budget, we adopted a tax rate of \$0.561615 cent per \$100 of valuation. This is a decrease of \$0.013892 from the tax rate for FY 2015 of \$0.575507. The tax components are as follows: \$0.471173 for Maintenance and Operations and \$0.090442 for Interest and Sinking (I&S) Fund Debt Service.

This budget appropriates monies with slight increases in the base budget (current level of services) for the day-to-day operations of the City. In FY 2016, the new capital facilities—the Fire Station, Police Department and Municipal Complex facilities will be fully operational. Funds are included in the budget for furniture, fixtures and equipment (FF&E) for the final phase.

Our City remains in sound financial condition with good financial reserves. For FY 2016, we are projecting approximately \$2,308,427 in the Capital Reserve Fund and \$900,000 in the Emergency Fund, for an estimated total of \$3,208,427. The Emergency Fund alone represents 6 weeks operating income. Included in the Capital Reserve number above is an estimated \$599,000 that will be coming from the CIED Fund once it is closed out in FY 2016.

In 2005 Leon Valley voted to freeze taxes on individuals over 65 years old. This means that when an individual turns 65 the value of their home and the amount of taxes they are paying are frozen for Leon Valley. That is why there are two components to the taxable value calculation. When calculating taxable freeze adjusted, the taxable value that is

frozen must be subtracted and the dollars that are calculated for the freeze portion are then added to the amount of dollars that the City will receive from ad valorem taxes.

The Appraisal District lists the City FY 2016 certified freeze adjusted tax roll at \$669,310,514, which represents a 9.06% increase or \$55,628,016 increase over the FY 2015 tax roll. The freeze taxable value for FY 2016 amounts to \$78,671,207 and in FY 2015 that amount was \$77,327,376, an increase of \$1,343,831.

REVENUE HIGHLIGHTS

The General Fund FY 2016 revenues are budgeted at \$7, 875,304, an increase of \$436,724 over FY 2015. Sales Tax revenue is budgeted at \$2,277,100, an increase of \$152,910 over FY 2015 budget. Franchise fees are budgeted at \$959,929, an increase of \$119,831 over FY 2016 budget. The increase is mainly attributable to the increase in the CPS Franchise fee and the additional .5% that was previously allocated to the CIED Fund.

On November 5, 2013 the voters approved a 1/8 percent local sales and use tax to support a Crime Control and Prevention District. The Crime Control and Prevention District is a special purpose district created for the purpose of improving crime prevention. Revenue for FY 2016 is budgeted at \$248,500.

The Water and Sewer revenues for FY 2016 are budgeted at \$3,613,800. This is an increase of \$31,631 from FY 2015. The increase is attributable only to an increase in sewer treatment fees that is a pass through for SAWS.

In the Water Utility Enterprise Fund activity, we are not proposing a rate increase at this time. However, a rate increase will be necessary to support debt of the water wells project after the debt service is known.

EXPENDITURE HIGHLIGHTS

General Fund expenditures are budgeted at \$8,422,427, an increase of \$518,729 over FY 2016. The new expenses include an increase in workers' compensation insurance; a 1.5% Cost of Living for all employees; the final cost of rental for the relocation of the administrative staff during the final phase of construction of the municipal facility; and funds to redesign the trail for the LC-17 Project for a 39 inch Heritage Red Oak tree. Capital expenditures are budgeted at \$457,320 an increase of \$318,320 compared to the FY 2015 budget.

Water and Sewer operating expenditures for FY 2016 are budgeted at \$3,627,542, an increase of \$112,659 FY 2015, which is attributable to an increase in worker's compensation insurance; a 1.5% Cost of living increase for all employees; and \$200,00 for Storm Water Projects. User's Guide to the Budget Document

Overview

This section is designed to assist the reader in the use and comprehension on the City of Leon Valley's Budget Document. The Annual Budget serves as a policy document, financial plan, an operations guide and a communications device. It is utilized by City Council and City Staff to monitor revenue and expenditures.

Budget Tabs

The budget is arranged in three sections that are separated by the following respective tabs. Below is a brief description on the materials found in each of the sections.

- ❖ User's Guide
- ❖ Departmental Appropriations
- ❖ Capital Acquisition Plan

Users's Guide - This section is used to provide the reader a summary of what is contained in the budget document.

Departmental Appropriations - This section is organized by department and provides the reader with a better understanding of the kind of services provided by each department. Individual department summaries contain organization chart, department description, mission statement, program narrative with accomplishments and objectives, personnel, performance measures, and department appropriations.

Capital Acquisition Plan (CAP) - This section contains the Five Year Capital Acquisition Plan organized by department. The intent of the CAP is to enable the City to make long range judgements on the needs of the City each fiscal year and apply available resources to these needs to the extent possible. The CAP is funded each fiscal year by the Available Reserve, which is the amount left in the fund reserve at the end of the previous fiscal year less the Assigned Fund Balance of \$900,000 for General Fund and \$350,000 for the Enterprise Fund.

Budget Amendments

The City Manager is authorized to transfer budget amounts between line items within a department. Actual expenditures may not legally exceed budgeted appropriations.

Budget Basis

Governmental Funds (General, Special Revenue, and Debt Service) are prepared and accounted on a modified accrual basis using a current financial resource measurement focus. Briefly this means that revenues are recognized in the period in which they are both measurable and available and expenditures are recognized when incurred.

The Enterprise Fund (Water and Sewer) are prepared and accounted for using the full accrual method of accounting for both revenue and expense similar to a commercial enterprise. The revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Budget Controls

Budgetary compliance is a significant tool for managing and controlling governmental activities, as well as ensuring conformance with the City's budgetary limits and specifications. The objective of budgetary control is to ensure compliance with legal provisions embodied in the annual appropriated budget adopted by City Council. The budget is adopted each fiscal year. The fiscal year for the City of Leon Valley starts on October 1st and ends on September 30th of each year. Budgetary preparation and control is exercised at the departmental level.

Accounting Basis

The Comprehensive Annual Financial Report (CAFR) shows the status of the City's finances on a basis of generally accepted accounting principles (GAAP).

Governmental funds (General Fund, Special Revenue and Debt Service) are accounted for on a modified accrual basis using a current financial resources measurement focus. Revenues are recognized in the period in which they are both measurable and available and expenditures are recognized when incurred except for interest on general long-term debt which is recognized when due. Sales and property taxes are considered "measurable" when in the hands of intermediary collecting governments and are recognized as revenue at that time.

Enterprise Funds (Water and Sewer) have an economic resources measurement focus and use the full accrual method of accounting for both revenue and expenses similar to a commercial enterprise.

Fund Accounting

The City's accounts are organized on the basis of funds and accounts groups, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which are comprised of each fund's assets, liabilities, fund equity, revenues, and expenditures or expenses as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

DEPARTMENT DESCRIPTION AND MISSION

The primary mission of the Fire Department is to prevent and/or minimize the loss of life and property within the corporate limits of the City by establishing control over fires, sudden medical emergencies and the consequences of natural and manmade disasters. The Fire Department accomplishes this mission with three budgetary divisions: Administration, Operations and Emergency Medical Services. The Fire Prevention division is budgeted under Operations.

Contemporary fire departments must be "all-risk" emergency response organizations - capable of responding to a wide variety of incidents. Because of this, firefighters must not only be proficient at their primary tasks (firefighting and emergency medical services) but must also be able to perform complex technical rescues, operate efficiently in multi-casualty situations, work in situations involving release of hazardous chemicals, biological agents, radiological materials, explosions and disasters such as floods. Firefighters are trained in the National Incident Command System, enabling them to effectively interface with other City departments, local agencies, County, State and Federal assets during disaster situations.

LEON VALLEY CRIME CONTROL AND PREVENTION DISTRICT

DEPARTMENT DESCRIPTION AND MISSION

The Crime Control and Prevention District is a special purpose district created for the purpose of improving crime prevention and reducing crime. In 1989, the Texas Legislature recognized that smaller cities within large metropolitan areas are greatly impacted by big city crime without the big city resources to fight crime problems they face. The Legislature passed the Crime Control and Prevention District Act to enable cities to create a special district that can collect a sales tax specifically dedicate to crime Control and reduction.

On November 5, 2013 the citizens of Leon Valley voted to create a Crime Control and Prevention District that will be supported through a 1/8 percent local sales and use tax.

COMMUNITY CENTER FUND

DEPARTMENT DESCRIPTION AND MISSION

The Community Center Fund is comprised of the operations of two multipurpose centers: the Community Center, and the Conference Center. These Centers are rented to the general public for a fee, and are also used for City sponsored events. The rental revenues off-set operational expenses, and a portion of the revenue is also retained for the long term maintenance of the facilities. The Hotel tax revenue fund also supports the Centers' operations.

The Centers are versatile facilities in a park-like setting, and are used for a variety of activities such as civic, private and social functions. The Conference Center was designed specifically for business conferences and events, but is versatile enough to accommodate social events as well. The Conference Center is designed for events up to 150 people, and the Community Center can accommodate up to 300 people. The Centers are also used to host the City's civic events.

The mission of the Leon Valley Community and Conference Centers is to provide a multipurpose venue for area community groups such as senior citizens, civic organizations and others, and to attract clients on a fee basis for use of the facilities for various events such as weddings, graduations, reunions, and special events.
